young aspirants of the speculative fame

by the Rich-Cache Mining company, and here is the result: The ledge is a true contact fissure vein with quartrite foot wall and bine limestone

account at the Constition buildaccount a seeding & Gilleth, of this city, have purhamed the lease and bond held by Young
Tibbetts on the Bonanza, New World and King, in Earle district. A force of the will at once if put to work to develop the properties.

It is now authentically

and King, in Dage district. A force of men will at once by put to work to develop the properties.

It is now authentically reported that another gigantic mineral strike has recently been made in the vicinity of the Amston, at the head of Loran canyon, says the Logan Nation. The ledge protundes from the surface of the earth resembling a wedge, and as excavations are prosecuted the vein gradually broaders until it is now nve fresh in width. The are upon the surface assays upwards of \$40 per ton, and further down, is simest pure galens. The chain is ewend by James Hansen, O. W. Beasen J. H. Davis and others, and they are confident that their strike will prove a

THE STOCK MARKET great bonance. Work is fast being prospected, and there are already twenty tons of ore on the dump.

Tay Gould' Davis Talks to The Beraid of the Depressed and Very Flat Condition General Mising News.

Since the Stock exchange united up its shutters, there has very little been said of the price of local sincks.

During the time when daily sessions of the Stock exchange were the rule there were two dozen men who figured conspired was famously in the pit as bails and bears and who had no other visable means of support than the margins and commissions they made by dathling in stocks. Several of the young aspirants of the speculative fame had their corrects cut short and wave goad.

Are not the only shode of malaria. You find it everywhere, even in localities where atmospheric and sanitary conditions would seem to be unfavorable to its development. The universal remedy for and preventive storm and whether it be chills and fever, bilious remittent, dumb ague or space take, the pitters is the studebaker wagen company, and means of protection and ours. From all conditions were two dozen men who figured conspicuously in the pit as bails and bears and who had no other visable means of support than the margins and commissions they made by dathling in stocks. Several of the young aspirants of the speculative fame had their corrects cut short and wave goad.

Are not the only shode of malaria. You development. The universal remedy for and preventive beat the development. The universal remedy for and preventive is the development. The universal remedy for and preventive is the sunter atmospheric and sentancy conditions would seem to be onlavorable to its development. The universal remedy for and preventive is the malady assumes its most virulent form, and whether is the estitlement Probable.

His Attorney Claims That Others atmospheric and sevent would seem to be visuable means of the speculative of the speculative fame and very first the development. The universal remedy for and preventive, whether the students and the best most virulent form, and weether the best must be the best most virulent form, and very first the best

described and abandoned her, leaving her controlly destitute and without any means whatever for her support. She asks that the court give her the custody of her two minor children. Nors May, aged 2, and Claud, aged 7, and that she be germitted to resume her maiden name, Stonebraker, and for such other relief as she may be carried to Judge Zane signed an order of publication in the case, as the defendant resides at St. Joseph, Iii.

## THE COLLETT ESTATE.

The Oriental mine situated on Rock creak a few miles from Bellvelow, shipped within the last few weeks \$2,500 worth of ore, the greater part of which is the product of the labor of three miners operating during the last three months. This mine was offered for sale and the price fixed at \$10,000. Had it been purchased and vigorously worked the company could have got their money back in less than a year.

Work at Soldier.

Development work continues on the gold properties at Soldier, and with the most encouraging results. These mines have shipped ore to the sampler at Halley that gave returns of from \$00 to \$150 per ton in free gold. Can the world beat it.

Ore and Boillon.

Wells, Fargo & Co. received yesterday:

Description of the sampler and leadness \$7,500.

T. R. Jones & Co. received yesterday:

Martin Correll was down from the Park yesterday.

The Mayhower sent in 187 tons of concentrates yesterday.

L. E. Hier is up from Silver city.

Pitty five tons came from the Brooklyn yesterday.

The Old Jordan and South Galena sent in lab by shipment yesterday.

L. D. Young has returned from a visit to the Wall Annis. He reports the prospects for a big mine are improving daily.

Pitty five lons came from the Brooklyn yesterday:
